<b>EASY PEELERS</b>																															
<b>Clementine</b> Seedless, well-colored and high juice content	[Green bar]																														
<b>Novas/ Clemenvillas</b> Attractive reddish-orange rind with minimal seeds; peel removes cleanly from fruit																	[Green bar]														
<b>Fairchild</b> Bright orange color known for its 'zipper skin'																	[Green bar]														
<b>Or (ClemenOr)</b> Tender and juicy and virtually seedless; very sweet with sufficient acidity to give well-balanced flavor																	[Green bar]														
<b>Nadorcott</b> Seedless; outstanding eating quality with high sugars and intensely rich flavor																	[Green bar]														
<b>Morr (Honeygold)</b> Thin, easy-to-peel rind; exceptionally sweet flavor																	[Green bar]														
<b>ORANGES</b>																															
<b>Navels</b> Sweet, juicy and seedless	[Green bar]																[Green bar]														
<b>Cambria Navels</b> Sweet, juicy and virtually seedless																	[Green bar]														
<b>Autumn Gold Navels</b> High juice content; more acidic flavor																	[Green bar]														
<b>Midnight</b> Exceptionally high juice percentage; better flavor; near seedlessness; large in size																	[Green bar]														
<b>Cara Cara Navels</b> Sweet taste with relatively low acid content																	[Green bar]														
<b>GRAPEFRUIT</b>																															
<b>Star Ruby</b> Brilliant ruby red color; juicy and bursting with sweet and tart flavor	[Green bar]																[Green bar]
