

FRESH SWEET DELICIOUS

Harvest of Hope

Promoting Economic Empowerment for a Brighter Future

For generations, South African farm families have lived and worked on citrus farms throughout the Northern and Western Cape regions. Through the Harvest of Hope program, these farm families can achieve land co-ownership and build a sustainable future for generations to come.

Currently, several successful Harvest of Hope projects flourish throughout the region and benefit from the export of Summer Citrus to the US. Projects include worker shareholding in citrus pack houses as well as in farms producing citrus, Rooibos (red bush) tea, wine, table grapes, and deciduous fruits.

Harvest of Hope projects support initiatives such as:

- Skills development
- Education and training
- Childcare
- Leisure time development
- Healthcare with a focus on education about and prevention of HIV AIDS
